## Descriere Masseria Torre Coccoaro Hotel 5\*

The setting is classic Puglia, on a sun-bleached hillside facing the Adriatic Sea, amid groves of olive trees. The hotel began its life in the 16th century as a watchtower, a fortified farmhouse, designed as a stronghold against marauding Turks. Surrounded by history, secular olive trees and a stone portico marked by grand vaults, you will experience the genuine pleasure of living in a farm, looking at the true colours and scents of the countryside. The hotel is located in the suburb of Savelletri, close to Fasano Train Station and Fasano City Centre. It offers easy access to Bari International Airport.
